ABOUT ME

Total **9.5 years of professional experience** in web-based software development.

Excellent exposure to **AWS**.

Experience in building widely used scalable applications.

Passionate about Application Level Security.

KEY SKILLS

Cloud Platform	AWS
Front End	Angular JavaScript Typescript jQuery, java Script
Back End	C# .NET Core Web API & WCF ADO.NET Entity Framework LINQ Windows Services
Database	Elastic Search MS SQL Server AWS Dynamo DB My SQL Aurora
Stream Ingestion and Message Services	AWS SQS AWS SNS Tibco
Tools	DevOps TFS Git & GitHub JIRA Kibana SVN SQL Profiler SSRS
Methods & Standards	Agile Processes & Methodologies

EXPERIENCE

IT SPECIALIST

Volkswagen IT Services | April 2021 – TILL DATE

PROJECT: Calsium

- Currently working on a Supply chain management product which is being built with **Angular** as front end and **C#, .NET Core, Web API** at backend.
- Good exposure to niche technologies like **Elastic Search, AWS ECS, MYSQL AURORA, Dynamo Db, SQS**.
- **Cloud native development** with **DevOps, GitHub, Micro Services and Containerization**.

SENIOR SOFTWARE ENGINEER

COGNIZANT TECHNOLOGIES | JUN 2018 –March 2021

PROJECT: LPL Financial

- Worked on an application that helped advisor to do the trading for their client in the United States.
- **Involved in making design changes at the architecture level which helped in improving the efficiency of workflow.**
- Participated in **migrating** a monolithic on- premise application to **AWS**.
- Involved right from **initial assessment, estimation, and tasking** for the migration project.
- Changed the architecture to convert the monolithic application to **microservices- based** architecture.
- Suggested & Implemented **AWS SQS** Integration **to** have real-time data consistency across multiple applications.
- Helped the team with the **best coding practices** and implemented the most suitable **design patterns** which would increase the reusability & maintainability of code.
- **Mentored and guided** junior developers in making appropriate approach/ design decisions and mentored them whenever requested.

CERTIFICATIONS

- AWS Certified Developer Associate (Exam: DVA-C01)

EDUCATION

- Bachelor's in Engineering Information Technology
University of Pune
First Class with Distinction
69 %
- Diploma in Information Technology
MSBTE
First Class
67 %

SENIOR SOFTWARE ENGINEER LNT InfoTech. (NOV 2014 —JUN 2019)

PROJECT: Barclays ABSA BANK LTD.

- Worked on a very large and important investment banking application for one of the biggest private sector bank in South Africa.
- **Lead a small team** of 4 - 5 developers.
- **Automated multiple manual processes** through a series of jobs and schedulers. This brought down the travel card reload time from 24 hours to less than 5 mins.
- **Developed the Forex rate processing engine** which would fetch Foreign exchange rates from providers like Reuters, Bloomberg, Flex, and then perform complex business computation on them to arrive at the final rate which was to be charged to the customers.
- **Changed the entire taxation logic** on the application when a new tax regime was launched in SA in 2016.
- **Implemented best practices** and latest **mitigation techniques** to keep the **application secure** for Quotes.
- Involved in **designing and implementing REST APIs** which would interact with multiple systems through a middleware.
- **Planned, designed, and implemented** multiple medium size projects which provided exponential growth in transactions and revenue.
- Joined as Software Engineer and was later promoted to Senior Engineer Role based on my performance.

SOFTWARE ENGINEER

VSYS | JUN 2012 –MAY 2014
CLARION TECHNOLOGY | JUN 2014 – Nov 2014

PROJECT: ERP

- Relished working in a start- up environment as it fast- tracked my learning
- **Implemented and delivered multiple projects** which were built from scratch.
- Developed **business acumen** due to being constantly in touch with the founders and decision-makers.
- My role here involved **developing UI, developing Server- side APIs, database design, and database programming**. This opportunity helped me move to a full - stack role, very early in my career.
